RE: Areas of Potential Effects Proposed for DC Water's Potomac River Stormwater Retention Tunnel Project

Dear Mr. Ray,

On January 29, 2018 ANC 2E held its regularly scheduled public meeting, which was properly noticed and attended by eight commissioners, constituting a quorum. At this meeting the Commission adopted the following resolution by a vote of (8-0-0) with regard to the above-referenced matter:

ANC 2E has been asked to comment upon the Areas of Potential Effects proposed with respect to Components 8 and 9 of the Potomac River Stormwater Retention Tunnel Project. ANC 2E believes that the Areas of Potential Effects identified by DC Water have been drawn too narrowly and should be expanded to include the entire area of the Georgetown Historic District that lies south of the Chesapeake & Ohio Canal National Historical Park.

Respectfully submitted,

Joe Gibbons
Chair, ANC 2E

COMMISSIONERS:

Ed Solomon, District 1 Joe Gibbons, District 2 Rick Murphy, District 3
Mara Goldman, District 4 Lisa Palmer, District 5 Jim Wilcox, District 6
Monica Roaché, District 7 Zac Schroepfer, District 8
